100% SATISFACTION GUARANTEED

Our parts must meet with your complete satisfaction. All RPI parts are manufactured

to meet or exceed the original equipment manufacturer specifications and warranty requirements. Should any RPI part not meet with your complete satisfaction, please contact our Technical Service Department, toll-free (800) 221-9723 ext. 135 or (818) 882-8611 ext. 135 as soon as possible to obtain a Returned Merchandise Authorization (RMA) Number prior to returning any part. We will gladly arrange an exchange or credit. (No parts may be returned without an RMA Number and returned parts may be subject to a 15% restocking fee.)

EASY-TO-USE CATALOG

The RPI catalog is more than just a listing of parts. It's a work tool. Keep it handy and refer to it often. It's your best source for replacement parts.

The catalog is divided into sections based on type of equipment so that you can go right to the parts you need. Within each section, parts are categorized based on the OEM and model that they fit. Plus, at the beginning of each section is an Index that lists all of the OEMs, models, and the page numbers where you can locate the parts to fit them. Illustrations and detailed descriptions are provided for each part to simplify identification. What's more, all of the O-ring and cross section illustrations are to actual size.

Also included are several at-a-glance Reference Guides. They are helpful when you know what you need, but you don't have all of the information for a particular part.

And there's a section at the end of the catalog for you to keep all of the RPI newsletters, "The Alternate Source"®.

NEW PRODUCT UPDATES

We continuously add new parts, so please visit the RPI website www.rpiparts.com or watch for the RPI newsletter, "The Alternate Source"®, and our "New Parts" flyers that we distribute throughout the year so that you can keep your catalog up to date.

VISIT THE RPI WEBSITE

Searching for a part has never been easier than on RPI's website. Quickly search by OEM, Model, Equipment Type, RPI Part Number, OEM Part Number, or Part Name. You will also find our "Technical Resource Center" where you can download Installation Instructions, Troubleshooting Guides, Tech Help Videos and more. Visit the RPI website:
